Dwight Thompson **for** First Vice President

With years of experience organizing and representing deputies in the field, **Dwight Thompson understands that a strong union isn't built in meetings — it's built in motion, member by member, fight by fight.** As Field Vice President, Dwight has worked daily alongside deputies to strengthen representation, stabilize bargaining, and build a sustainable foundation for the challenges ahead.

Dwight believes that active membership is the most powerful tool we have to create and protect high-quality jobs. **When members are engaged, informed, and united, management has no choice but to listen.** He has focused on expanding opportunities for meaningful participation and fostering a culture where solidarity is more than a slogan — it's a daily practice.

Union activism, Dwight says, isn't a seasonal endeavor; it's a lifelong commitment that demands both service and sacrifice. **He is ready to keep building the infrastructure, strength, and unity needed for Local 685 to stand firm, fight hard, and win the tough battles ahead.**
